**Map/Sector:** The Plateau

**County:** Westreach

**Town:** Boneclaw (combat build starter town)

**Player Target Level:** 2

**Mission Name:** The Creepy-Crawlies Cockroach Corral

**Mission Type:** Use Item – "roach trap" (complete at questor)

**NPC:** Wrangler

**Greeting String:** Look at you, a real live stick of dynamite, I can tell—got a good sense for these things. I bet you're just popping to get in on a sweet investment like this one.

This here's a pen I built for holding a herd. A herd of what, you might ask? Cocks, that's what! And I don't mean the crowing kind. Round here, there's a lot of hungry mouths to feed, and not too many critters that scurry on less than six legs. If I can get this farm started up right—get 'em breeding for slaughter—I figure I'll be a regular hero. That's where you come in.

**Story String:** Wrangler wants you to catch him cockroaches to start his insect farm in Boneclaw.

**Reward String:** These look might healthy, lemme just check over 'em real quick.

**Busy String:** Now remember, you gotta bring me the pistol and the stamen—no wait, that's not right. Just bring me a guy and a gal, all right?

**Goal String:** Trap Roaches

**Busy String:** Somewhere out there's the woman you're looking for. Now go find those hairy legs and drag her back here.

**Greeting String:** We've got a problem, friend! Looks like our bunch took a little too kindly to each other, and now they've gone and overrun the place. I can barely keep the swarm contained. Have a little concern as one of the principle investors here. Our reputations will be ruined if they kill us and infest the town! You get what I'm saying?

**Story String:** Boneclaw's Wrangler needs you to shear his flock.

**Reward String:** You're my lucky draw, man. I don't know what I would've—next time, next time I'm making kennels. Gotta keep 'em separated.

**Busy String:** The hissing, it keeps me up at night. You should see what they do to the bags of garbage I throw into the ring. . . Now I think they've started eating each other.
